

Sedation Dentistry

Wake up to a new smile!

Do you have a... broken tooth? missing tooth? cavity?
Has fear or anxiety prevented you from treating it?

Sedation Dentistry
may be the answer!

Sedation Dentistry is the preferred type of anesthesia for many patients.
Advantages include:

- Reduces anxiety
- Increases comfort level
- Less sensitivity/gag reflex
- Easier access to back teeth
- Several treatments can be done together
- Saves you time away from work/school
- Increases endurance for long procedures
- Provides the dental care you need, today

Ask us about relaxing twilight sleep or full sleep treatment options.
