

Press Release - June 2006

Altima Dental Canada & The Handpiece Clinic announce partnership

Montreal, June 7, 2006 – The Handpiece Clinic Inc. (www.thehandpiececlinic.com), a ProDrive Systems Company, announced today that it has been selected as the exclusive handpiece service partner for Canada's largest network of dental centres; Altima Dental Centres & International Health Partners.

"Altima Dental has the largest network of dental centres in Canada. Our mission is to provide consistent and high quality dental care. We have selected The Handpiece Clinic as our exclusive handpiece service partner because of their quality service and competitive pricing," said Ameet Sharma, Financial Controller at Altima Dental Canada.

The Handpiece Clinic is celebrating its 10th anniversary. Just last fall the team moved into a larger service facility in Ottawa and opened its American service operations in New York. The Handpiece Clinic and ProDrive Systems are TTI Turner Technology Instruments Inc. Companies.

Jean T. Castonguay, President and CEO of The Handpiece Clinic and ProDrive Systems said, "We're excited about this partnership for two important reasons; first, it demonstrates the ability of our new operations to handle a growing client base. We have more than doubled our customers and revenue in just over 6 months. Second, it expands our reach into the market for product trials with our new ProDrive Upgrade Turbine – all Altima and International Health Partner clinics will be invited to join our trial to improve handpiece performance and durability."

About The Handpiece Clinic and ProDrive Systems

The Handpiece Clinic is the service arm of ProDrive Systems. ProDrive Systems designs and develops products with patented innovation that revolutionize the conventional standards of performance and durability of modern dental instruments. ProDrive Systems' innovative drive-lock design is the world's first turbine/bur system to improve the performance and safety of dental handpieces.

About International Health Partners (IHP)

IHP is the leading provider of practice management & business support services to dental and medical offices in Alberta, Canada. IHP manages the business operations and marketing of five dental centres and two medical clinics, allowing affiliated dentists and doctors to focus on delivering what they do best - quality patient care.
